USDA MARKS OF QUALITY MARKS OF WHOLESOMENESS

And the Foods on Which They're Used

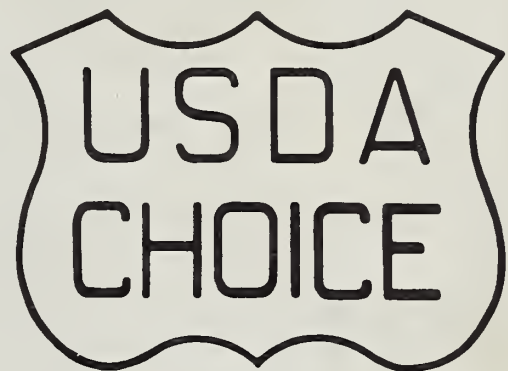

The grade names on the various grade marks shown here are merely illustrative. There is a range of grades for each of these products but different grade names are used. For a list of grades see "USDA Grade Names for Food and Farm Products" (AH-342) and "How To Use USDA Grades in Buying Food," PA-708.

NOTE TO ADVERTISERS: You may use any of these official grade shields in advertising **PROVIDED** that you actually offer for sale the product carrying the grade shield you display

in your advertisement. Use of any official USDA grade shield in advertising if you do **not** actually offer for sale the product carrying that grade shield constitutes a violation of Federal law. Likewise, use of the official USDA inspection marks for meat or poultry in advertising is permitted provided that the products offered for sale have, in fact, been Federally inspected. These official marks may be reproduced directly from this sheet, or you may order glossy prints or mats from the address below.
